## Talents Worksheet

**Directions:** This worksheet is designed to help you discover your talents. You will need to have completed the Gifts discovery, Loves discovery, and Skills discovery worksheets prior to working on this handout. Begin by entering all of the gifts, loves, and skills from the Multiple Mentions sections of those worksheets. Next, look for closely related terms in the three columns. Draw a circle around closely related terms and connect them with a line. These closely related terms are most likely your talents. Finally, list your top one to three talents in the bottom section.
